DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Seehof et al Chemical Abstract 118:102781 for J.Mol.Catalysis, 1992.

Seehof teaches the monomer below and a homopolymer of this monomer. It meets the limitations of formula I and Ia in claim 3.

Allowable Subject Matter

3. Claims 4-23 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art does not teach a polymer or a method of making a polymer having claimed monomers in claims 4-7, a photoresist composition or a patterning method wherein the composition comprises the polymer in claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
